Urgent Cases - Lives You've Helped Ease

"A Mother, A Teacher, A Fighter" K381

Despite battling hypothyroidism and lymphoma, Siti Safariah remains a dedicated mother of three and a pillar in her community. As a registered SPK representative for Apt Teratai, Bukit Beruntung, she opens her home to conduct Iqra and 3M classes, nurturing young minds with knowledge and faith.

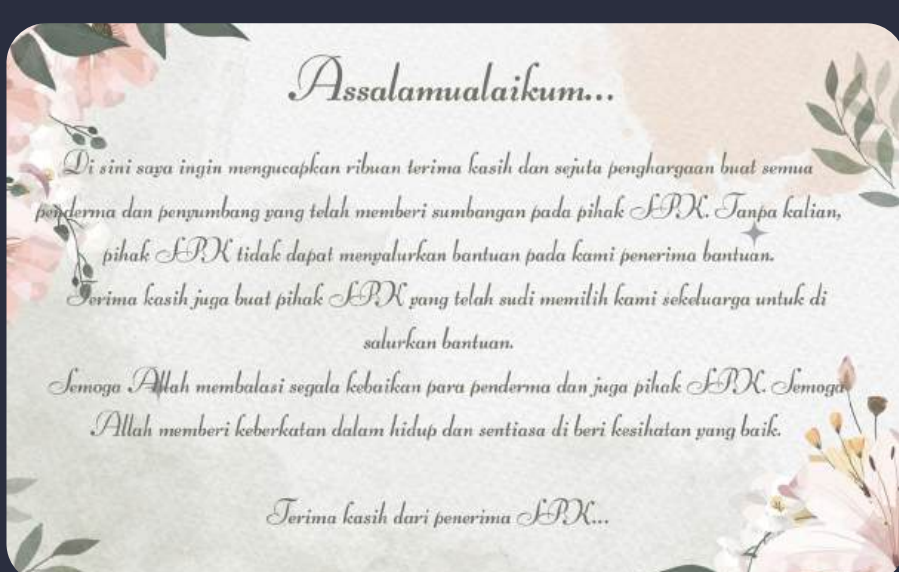

Her husband, Mohd Fauzi, works as a garbage truck driver to support the family. Even in illness, Siti continues teaching, determined to give back. SPK has extended support through alternative medicine from Prof Zainal, which has shown positive effects, along with assistance in the form of monthly food supplies and supplements.

"Growing Up in Hardship" K353

Hamidah's five children, aged between 2 and 12, are growing up facing hardship from a young age. Her fourth child suffers from seizures and needs ongoing care, while the youngest frequently falls ill and has had to be ward due to recurring fevers.

All five children are still very young, and their health conditions require constant attention, making it impossible for Hamidah to work. With no stable income, the family relies solely on support from Zakat and SPK while awaiting JKM's approval. SPK currently assists them with monthly food supplies and a RM100 emergency aid.
