#### A Barber Fighting for His Family

**K462**

A barber supporting his wife, seven children and mother-in-law, Mustamam faces multiple health crises at home. His eldest recently underwent bowel removal due to a growth and now relies on a stoma bag. A daughter is battling hormonal issues and anxiety, while a 12-year-old son has lung complications after surgery at age five. SPK provided BMB Set A, milk for the children and Emergency Aid of RM350 to help with surgery costs. The photos show how your support keeps a crowded, struggling household stable when illness strikes from many sides.

#### From Mould to Clean and Safe

**K353**

Caring alone for five children aged two to twelve, Hasmida cannot work due to her children's health needs. The fourth child has seizures, and the youngest is often hospitalised for infections. The family was living in very poor conditions with visible black mould on walls and furniture, which put the children at further risk.

On 8 September 2025, SPK and Semenyih representative Puan Norizan cleaned the home, removed moulded items and reorganised the space. SPK supplied pillowcases, bedsheets, pillows, a Japanese-style floor table, three single mattresses, three study desks, a stool and toys. SPK also provided BMB Set A, nappies, children's milk and RM100 Emergency Aid.
