

JULY 2026

July 2026 was a generosity and care. Through your continued support, families in need received essential aid to sustain the family for the month. Your kindness brought comfort, dignity, and joy into their homes. What may have been a difficult month for many became a month filled with relief, gratitude, and hope.

SPK's July Relief Efforts

Walking With Families Through Recovery

Helping Kenny Recover at Home

Kenny Hew Peng Kiong, affectionately known as Uncle Kenny, is a new Muslim, colon cancer survivor and divorcee who lives alone. He has been part of the SPK community since 2019.

After being admitted to hospital in May due to anaemia and nutritional deficiencies, Alhamdulillah, he was discharged on 30 June 2026. SPK assisted with his discharge and journey home, while an SPK officer and volunteer helped clean and prepare his home for his recovery. A new bed set was also provided, and SPK is currently arranging professional pest control to address a serious bedbug infestation in his home.

Shuhada's Continuing Health Journey

Noor Shuhada has been carrying the responsibility of caring for her husband, who has lived with the effects of a stroke since 2021, as well as their young daughter, Nornaura, who requires ongoing medical care for several health and developmental conditions.

Despite these challenges, Shuhada continues to manage frequent hospital visits and the needs of her family. She is currently undergoing follow-up treatment at Hospital Serdang for her lung, respiratory and ENT conditions. Alhamdulillah, her breathing remains stable while awake, although her oxygen levels drop during sleep. The hospital will continue monitoring her condition closely.

Jazakumullahu khairan, thanks to you and our generous community, Skuad Prihatin Kemiskinan served over hundreds of families and individuals in March alone. May Allah reward you abundantly, Ameen.
